PROFESSIONAL SUMMARY

Full-Stack Software Engineer with hands-on experience in building scalable web applications and backend systems. Strong understanding of REST Apis, authentication, database design, cloud deployments, and modern software development practices. Passionate about writing clean, maintainable, and production-ready code.

TECHNICAL SKILLS

Languages: JavaScript, Typescript, SQL, C++

Front-end: React.js, JavaScript, Daisy Ui

Backend: Node.js, Express.js, REST Apis

Databases: MongoDB, Mongoose, SQL

Cloud & DevOps: AWS, Docker, CI/CD, Git, GitHub

Tools: Postman, Vs code, Logging, Monitoring

Core Concepts: Data Structures & Algorithms, OOPS, System Design, API Integration

AI & Data: AI Integrations, Data Processing Pipelines

EXPERIENCE

Full Stack Developer

Jan 2024 – May 2025

Mindseekers Technologies, Noida

- Developed and maintained RESTful APIs using Node.js and Express.js for scalable web applications.
- Implemented JWT-based authentication and authorization mechanisms to secure user access.
- Collaborated with frontend teams to deliver end-to-end product features.
- Improved application performance and optimized infrastructure efficiency.

Software Engineer Intern

Jun 2025 – Aug 2025

Zaalima Development, Bangalore (Remote)

- Automated manual workflows through internal software solutions.
- Built data collection utilities and reporting dashboards.
- Assisted in testing, debugging, and deployment of web applications.

PROJECTS

Smart E-Learning Platform

React.js, Node.js, AI APIs, JWT Authentication

- Developed a secure e-learning platform with role-based access control.
- Implemented JWT authentication and authorization for user management.
- Protected front-end routes using React Router and backend APIs through middle ware.
- Followed modular architecture and clean coding practices for scalability.

Doctor Appointment System

Node.js, SQL, JavaScript

- Built role-based access control and authentication workflows.
- Developed appointment status management features including booking, cancellation.
- Developed backend services supporting 10,000+ monthly user requests and reduced API response time by 30%.

EDUCATION

Galgotias University, Greater Noida
Bachelor of Computer Applications (BCA)
Aug 2023 – Jul 2026

ACHIEVEMENTS & ACTIVITIES

- Solved coding and problem-solving challenges on Hacker rank and LeetCode.
- Demonstrated strong time-management while balancing academics and projects.
- Continuously explored modern web technologies and AI-assisted development workflows.
